

# CYBERSECURITY ROADMAP

## COMPUTER SKILLS

Computer skills refer to the knowledge and abilities required to operate computers and related technology.

## LINUX SKILLS

Linux is the most popular choice for hackers due to its flexibility, open source platform, portability and command line interface and compatibility with popular hacking tools.

## PEH BY TCM

Practical Ethical Hacking Course. In this course, you will learn the practical side of ethical hacking. This course focus only on tools and topics that will make you successful as an ethical hacker. The course is incredibly hands on and will cover many foundational topics.

## PRACTISE ON THM

TryHackMe is a free online platform for learning cyber security, using hands-on exercises and labs, all through your browser!

## OSCP CERTIFICATION

This online ethical hacking course is self-paced. It introduces penetration testing tools and techniques via hands-on experience. PEN-200 trains not only the skills, but also the mindset required to be a successful penetration tester.

## NETWORKING SKILLS

Networking skills are one of the most important skill to have if you want to be an ethical hacker.

## PROGRAMMING SKILLS

Programming skills are essential to becoming an effective hacker. One reason you want to know how to code as a hacker is so you can modify scripts that you will use to hack into different systems

## PRACTISE ON HTB

online cybersecurity training platform, allowing individuals, companies, universities and all kinds of organizations around the world to level up their hacking skills.

## EJPT

The eLearnSecurity Junior Penetration Tester (eJPT) is a 100% practical certification on penetration testing and information security essentials. By passing the exam, a cyber security professional proves to employers they are ready for a rewarding new career..

## DON'T STOP THERE

Hacking is a lifelong learning journey , we must not enter just to hack wifi password or to hack someone's phone. As time goes by, there are new vulnerabilities discovered and patched, thus we must be eager to learn new things and never stop learning.

A STEP-BY-STEP PROCESS
